

Beam Camp Instructors

Beam Camp is a Holiday Program that introduces primary aged students to emerging technologies with courses that incorporate VR, AR, Drones, Robotics, Coding, 3D modelling, and game development.

At Beam Camp, students can beat the holiday boredom, make new friends with similar interests and learn new skills in technology and coding.

About the role:

Beam Camp Instructors work face to face with our bright sparks teaching the Beam Camp content and ensuring their safety and wellbeing.

This is a casual position. Beam Camp Instructors will be required to work approx. 38 per week during the school holiday period.

A day in the life will see you:

- Delivering Beam Camp lessons to a class of around 20 students (as part of a team)
- Providing one on one help to students during class
- Keeping an eye out for any misbehaviour
- Assisting with student sign in and sign out
- Having a lot of fun with the students and tech!

Who we're looking for:

- People who enjoy working with kids
- People who love technology and gaming
- People who are willing to embrace adventure and learn new things
- People who are currently studying or have finished studying in fields like Education, Computer Science, Engineering (or any other STEM area)
- People with knowledge of block coding will be highly regarded
- People who work well in a team setting
- People who are able to work well unsupervised
- People who are fluent in conversational English
- People with a Working With Children Check (or willing to obtain one)
- People with a First Aid Certificate will be highly regarded

To apply for this role please email beamcamp@lumination.com.au with your cover letter and CV.
